STATEMENT IN SUPPORT OF PETITION TO MAKE SPECIAL
ON THE GROUND OF ACTUAL INFRINGEMENT
(37 CFR §1.102(d) and M.P.E.P. §708.02, PART II.)

Commissioner for Patents:

I, Kevin S. Costanza, am an attorney of record in this application and am registered to practice in the Patent and Trademark Office.

I have carefully reviewed the present application and allege that:

(A) There is an infringing device that is being offered for sale and/or has been sold in the United States to at least one customer located in the United States, and that has been and/or will be imported into the United States;

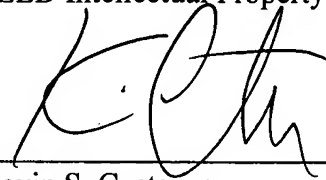

(B) The inventor has seen the accused device, and has informed me that it is identical in construction to the inventor's own device that is the subject of the present application. I have made a rigid comparison of the inventor's device and method with the corresponding claims in the present application, and in my opinion at least one of the claims in the subject application unquestionably reads on the inventor's device and the method of making the same. Accordingly, as the two devices are identical, at least one

claim in the present application unquestionably reads on the accused device (I note that the accused device was being offered for sale/sold in a U.S. customer's domestic showroom under strictly confidential conditions, and the vendors—including the present inventor—were contractually bound not to take photographs of competitors' products, as is apparently standard practice in this particular industry. As such, I was not able to conduct a direct analysis of the accused device under the circumstances; however, the accused device was being offered for sale for delivery and retail sale during this year's Christmas holiday.); and

(C) I have a good knowledge of the pertinent prior art and one copy of each of the references deemed most closely related to the subject matter encompassed by the claims has been made of record.

Respectfully submitted,
